## Course Overview

This Financial Risk Management training course provides participants with a holistic understanding of financial risks and the advanced tools required to manage them effectively. Combining theoretical frameworks with real-world applications, the program emphasizes regulatory compliance, risk measurement methodologies, and strategic mitigation practices. Delivered over five intensive days, it equips professionals with the expertise to strengthen organizational resilience and long-term sustainability.

## Course Objectives

**By the end of this training course, participants will be able to:**

- Develop a solid understanding of market, credit, operational, and liquidity risks, and their implications for financial stability.
- Apply key risk measurement techniques, including Value at Risk (VaR), stress testing, scenario analysis, and credit risk models (PD, LGD, EAD).
- Utilize financial instruments such as derivatives for hedging, portfolio diversification, and risk transfer.
- Navigate major regulatory frameworks (Basel III, Dodd-Frank Act) and ensure compliance.
- Integrate risk management within corporate governance and foster a culture of risk awareness.

## Target Audience

**This program is ideal for professionals in finance and risk-related roles, including:**

- Risk Managers & Chief Risk Officers (CROs)
- Finance Managers & Directors
- Investment Analysts & Portfolio Managers
- Compliance Officers
- Internal Auditors
- Treasury & Credit Analysts
- Operations Managers
- Financial Consultants & Advisors

## Methodology

**The course is delivered as a highly participative workshop, featuring:**

- Expert-led presentations.
- Practical case studies and real-world examples.
- Interactive exercises using financial modelling in Excel.
- Hands-on analysis of participants' organizational risk exposures.

## Course Outline

### Day 1: Foundations of Financial Risk Management

- Types of risks: market, credit, operational, liquidity
- Risk management frameworks: process, appetite, tolerance, capacity
- Global regulatory landscape: Basel III, Dodd-Frank Act
- Regulatory bodies and their impact on practices
