Duration :	2 Weeks	Price :	8925 \$

Course Overview

In today's competitive business environment, organizations need more than just operational efficiency—they require a structured approach to align activities with strategic goals and measure performance effectively. The Balanced Scorecard is a powerful management tool that enables organizations to translate their vision and strategy into actionable objectives across four perspectives: Financial, Customer, Internal Processes, and Learning & Growth.

This training program equips participants with the knowledge and skills to design, implement, and leverage the Balanced Scorecard to drive organizational performance, improve communication, and achieve sustainable results. Through a combination of interactive workshops, case studies, and practical exercises, participants will gain hands-on experience in applying the Balanced Scorecard to real-world organizational challenges.

Course Objectives

By the end of this training, participants will be able to:

- Understand the principles, components, and strategic value of the Balanced Scorecard.
- Develop and implement a Balanced Scorecard tailored to their organization.
- Align strategic objectives with measurable targets across all four perspectives.
- Use the Balanced Scorecard to enhance organizational communication and performance.
- Evaluate and refine the Balanced Scorecard for continuous improvement and long-term success.
